A S A S

ALENJAZ TECHNICAL WORKS L.L.C

WEBSITE THEME PROPOSAL

Brand Colour & Theme Profile

One colour system built from the ASAS logo. It replaces the five unrelated accent colours the website template uses today, so every page looks like the same company.

Prepared for
ASAS Alenjaz Technical Works L.L.C

01 · FOUNDATION

Where the colours come from

The logo is a single deep navy, **#06245E**, set in a wide, spaced sans-serif. The whole palette is built from that navy. Every blue shares its hue (220°), so the site reads as one brand instead of a template.

Direction: Trust & Authority

A technical-works contractor is chosen for reliability. Navy says competence and dependability. One warm gold accent adds the energy and visibility a service business needs for calls to action, and it echoes the yellow safety tones of the trade. This matches the "Authority navy + trust gold" profile recommended for professional services.

What this fixes

Today

The template mixes **green**, **yellow**, **orange**, **red**, **bright blue** and a **purple**, in a different combination on each home template. Buttons are orange on one page and blue on the next.

Proposed

Two brand families: **navy/blue** for structure and actions, and **gold** as the single accent. Neutrals are tinted towards the navy so greys never look muddy next to the logo.

Personality

We are	Expressed through
Dependable	Deep navy structure: header top bar, hero backgrounds, footer
Clear and professional	Generous white space, one action colour, high-contrast text
Responsive and ready	Gold for the moments that matter: "Get a Quote", emergency and offer highlights

02 · PALETTE

The colour palette

Brand colours

ASAS Navy
#06245E · RGB 6 36 94 · HSL 220 88% 20%

Primary. Taken directly from the logo. Headings on dark, top bar, hero and section backgrounds.

Action Blue
#184FB4 · HSL 219 76% 40%

Buttons, links, active menu item, icons.

Signal Gold
#F2B300 · HSL 44 100% 47%

The one accent: key CTAs, highlights, badges. Always with navy text.

Supporting colours

Blue Hover
#123F91
Hover / pressed state of Action Blue

Blue Tint
#EDF2FD
Icon wells, selected rows, soft buttons

Deep Amber
#B45309
Gold's text-safe partner on white (prices, offers)

Deep Navy
#041634
Footer and the darkest bands

Neutrals (navy-tinted)

Ink
#0A1A3A
Headings and strong text

Body
#46546A
Paragraph text

Muted
#5A6A80
Captions, meta, placeholders

Border
#DCE3EE
Dividers, card and input borders

Surface
#F4F7FC
Alternate section background

White
#FFFFFF
Page, cards, header

Success
#16A34A
Form success, "in stock"

Error
#DC2626
Form errors, alerts

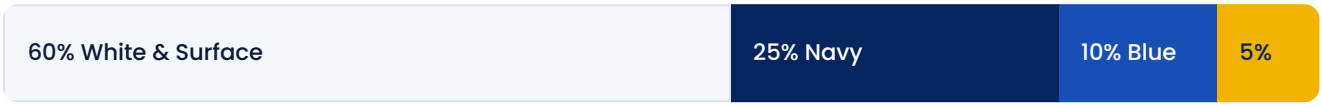

Blue scale (generated from one hue, as the theme already does)

50 | 100 | 200 | 300 | 400 | 500 | 600 | 700 | 800 | 900

03 · USAGE

How much, and where

Keep the balance close to 60 / 30 / 10: mostly light surfaces, navy for structure, gold used sparingly so it always draws the eye.

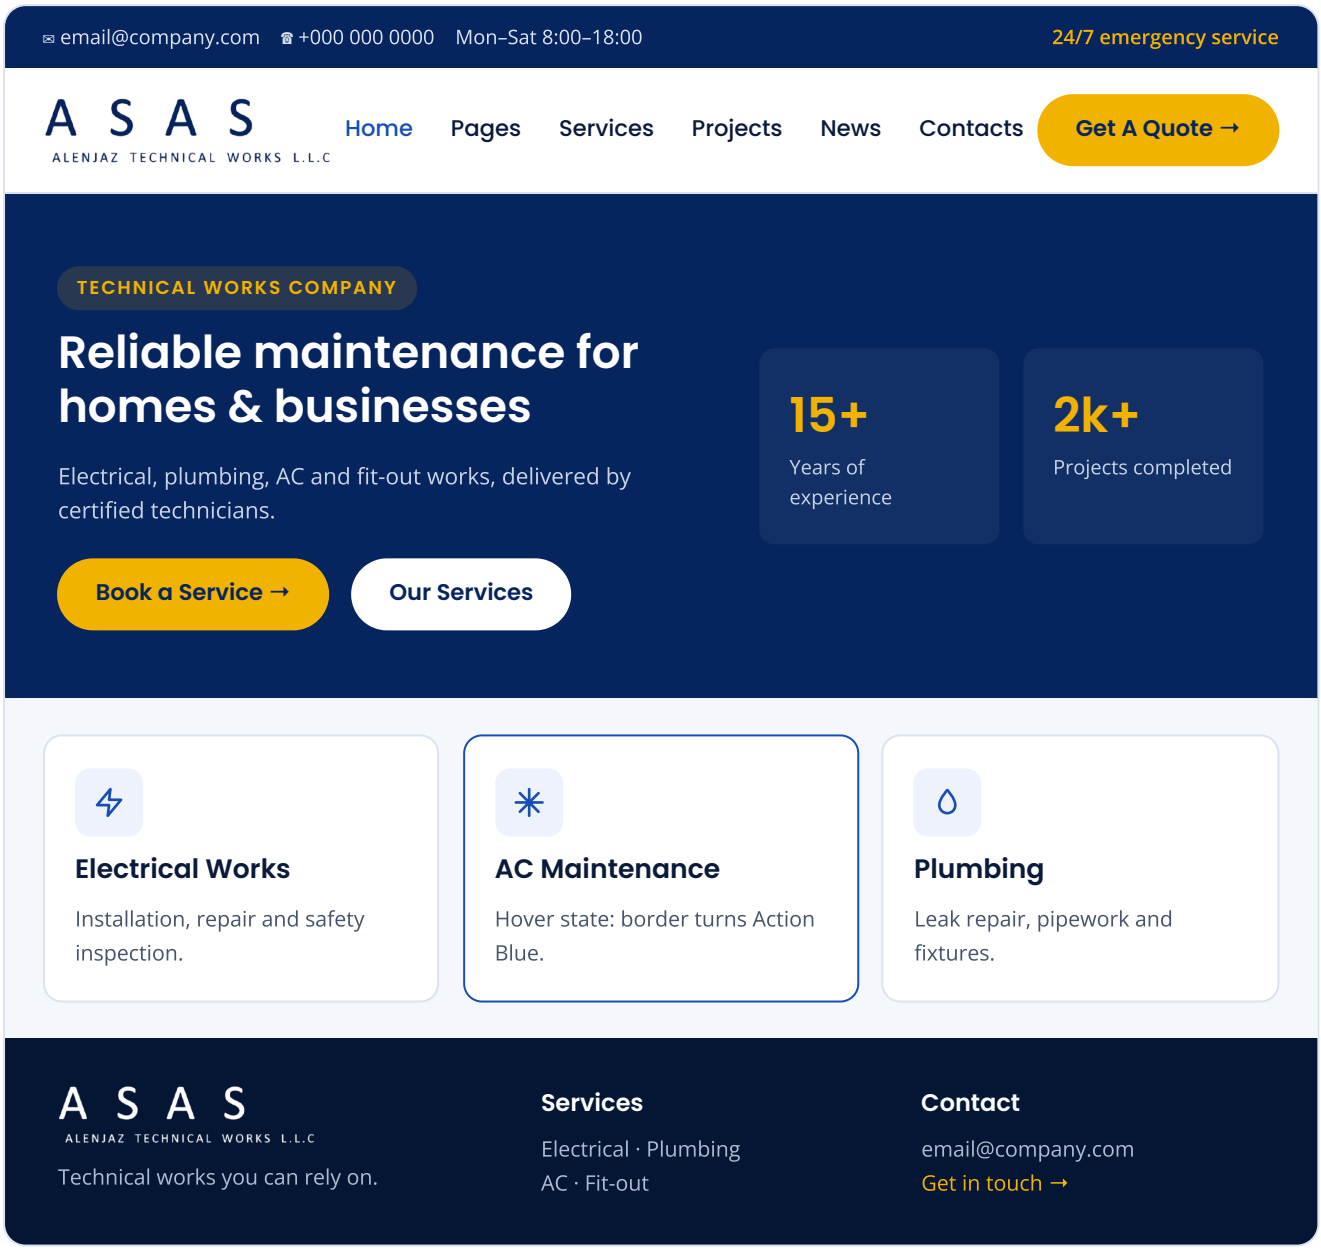

Colour roles across the website

Element	Colour	Notes
Header top bar	Navy bg · white text	Replaces today's bright yellow bar. Icons in gold.
Main navigation	White bg · Ink links	Hover and current page in Action Blue
Primary button	Action Blue · white text	Hover: Blue Hover #123F91
"Get a Quote" / key CTA	Gold · navy text	At most one gold button per screen
Secondary button	Navy outline	On dark: white button, navy text
Links in text	Action Blue, underlined on hover	
Headings	Ink	White on navy sections
Body text	Body	#C9D3E6 on navy, #AFBBD0 on footer
Hero / banner	Navy, or photo with navy overlay (70–80%)	Gold for the small badge above the heading
Alternating sections	White ↔ Surface	One navy band per page for stats or a CTA
Cards	White · Border · Blue Tint icon well	Hover: border turns Action Blue
Stats / counters	Gold numbers on navy	Blue numbers on white
Footer	Deep Navy · #AFBBD0 text	White logo, gold links on hover
Form fields	Border · focus ring Action Blue	Errors in #DC2626 with a message, never colour alone

04 · PREVIEW

The theme in use

Buttons

Primary | Primary · hover | Key CTA | Secondary | BADGE | OFFER

Contact details and figures in this preview are sample text. The website keeps its existing Phosphor icon set.

05 · TYPOGRAPHY & ACCESSIBILITY

Type and contrast

The logo uses a clean, widely spaced sans-serif. **Poppins** for headings keeps that geometric, confident feel; **Open Sans** for body text is highly readable at small sizes. Both are free Google Fonts.

H1 · Poppins 600 · 48–68px	**Reliable technical works**
H2 · Poppins 600 · 28–46px	**Our maintenance services**
H3 · Poppins 500 · 20–28px	**Electrical installation**
Body · Open Sans 400 · 16px / 1.6	Our certified technicians handle every job with care, on time and to code.
Eyebrow · Poppins 600 · 13px caps	ABOUT OUR COMPANY

Contrast check (WCAG 2.2)

Text	On	Ratio	Result
Ink	White	17.2 : 1	AAA
Body	White / Surface	7.7 / 7.2 : 1	AAA
Muted	White / Surface	5.5 / 5.1 : 1	AA
White	Action Blue	7.5 : 1	AAA
White	ASAS Navy	14.8 : 1	AAA
Navy	Signal Gold	7.9 : 1	AAA
Gold	Navy / Deep Navy	7.9 / 9.6 : 1	AAA
Action Blue	White / Blue Tint	7.5 / 6.7 : 1	AAA / AA
Deep Amber	White	5.0 : 1	AA
Gold	White	1.9 : 1	Never use: gold text on white

06 · IMPLEMENTATION

How it will be applied

The template generates each colour's full 50–900 scale from three HSL values. Changing those values in one override stylesheet recolours the entire site, with no page-by-page edits.

Theme variable	Used today for	New value
`--main-eight`	Bright blue: buttons, links, active menu	Action Blue · 219 76% 40%
`--main`	Green accents	Action Blue · 219 76% 40%
`--main-six`	Red accents	Action Blue · 219 76% 40%
`--main-two`	Yellow top bar and highlights	Signal Gold · 44 100% 47%
`--main-four`	Orange CTAs on some templates	Signal Gold · 44 100% 47%
`--black` / heading	Headings	Ink · 220 71% 13%
`--body`	Paragraph text (neutral grey)	Body · 217 20% 35%
Hard-coded colours	Purple #301996, orange #EB6029, several navies (#041B34, #0B163F, #0D1C5D…)	Mapped to ASAS Navy, Deep Navy or Action Blue
Fonts	Parkinsans (+4 others)	Poppins headings, Open Sans body

Do

- Use one gold button per screen, for the main action
- Put navy text on gold, never white
- Use Action Blue for everything clickable
- Put a navy overlay on hero photos so white text stays readable
- Pair colour with text or an icon for status

Don't

- Bring back orange, green, red or purple accents
- Use gold for body text or small text on white
- Stretch, recolour or add effects to the logo
- Put the navy logo on dark backgrounds (use the white one)
- Use pure black (#000) text

Next step: on approval, the palette and fonts are applied through one override stylesheet and checked page by page (desktop and mobile) before hand-over.
